

Annual NASA convention 2019, SJB School of Architecture and Planning, Bangalore from 19th to 24th January 2019.

From obtaining the observership status, with the college code of Z177 in National association of students of architecture to qualifying for annuals, the whole journey for Department of Architecture IGDTUW has been such an experience which is even difficult to comprehend.

After our successful participation in ZoNASA held in IET Badal from 18th to 21st October 2018, we prepared ourselves for the Annual NASA convention held in SJB school of Architecture and Planning, Bangalore 19th to 24th January 2019.

Annual NASA convention commenced with the round of paneling for trophies like HUDCO Trophy, Louis. I. Kahn trophy, Landscape trophy and Reubens trophy. From standing in long queues to rushing for the pin up, we successfully displayed our work along with all the other colleges from all around the country. Further we also worked upon other trophies like Laurie Baker trophy, GRIHA trophy, ANDC (Annual NASA design trophy) and writing architecture trophy.

Further, the students also got qualified for performing in the cultural trophies, i.e. Battle of Bands, Dance trophy, Fashion Trophy.

Panel: LIK TROPHY

Panel: HUDCO Trophy

Further, Ice breaking and formal events, workshops and talk sessions by well known architects opened up new opportunities for our students and helped them interact and learn.
