INNOVORTEX: AN IDEATHON CONDUCTED BY TECHNEEDS

Organised by a team comprising Saie Panwar, Vidhushi Agarwal, Avni Singh, Sripriya Agarwal, and Nitya Singhal, the Ideathon "INNOVORTEX" held at IGDTUW Auditorium on September 29, 2023, under the ECE Department, stands out as a commendable collaborative effort with Microsoft Azure and Reskill. The event brought together enthusiasts, developers, and innovators in the domain of artificial intelligence and natural language processing.

The distinguished lineup of expert speakers added significant value to the Ideathon. Shirish Jain, a renowned data scientist, shared profound insights into the realms of AI and NLP. Following this, Lakshit Pant, an expert in Developer Relations, and Nirupama Singh, a seasoned Software Engineer, contributed their expertise to further enrich the participants' knowledge base. The venue, IGDTUW Auditorium, provided an apt setting for the Ideathon, fostering an environment conducive to creativity and innovation for the top 15 teams that got selected. The event commenced at 10:30 AM, with participants eagerly anticipating a day filled with learning and collaboration.

One of the highlights of "INNOVORTEX" was the keynote address and sessions by our expert speakers, offering invaluable perspectives on AI and NLP. The Ideathon witnessed active participation, with teams working on innovative projects throughout the day. Notably, the top three projects were recognized and awarded the prestigious "MS Azure Merchandise" by Microsoft Azure, underscoring the quality and innovation showcased by the participants. Moreover, every participant received a certificate of project participation, acknowledging their dedication and contribution to the Ideathon. This not only served as a testament to their hard work but also provided them with a valuable addition to their professional portfolios. The collaboration with Microsoft Azure and Reskill added an industry perspective, enhancing the practical relevance of the event. The participants left with not only certificates but also enriched insights, experiences, and a strengthened community within the realm of AI and NLP.
