Session on Latex Demystified in Viksit Bharat: An Introduction to Document Typesetting on Viksit Bharat @2047

The 'Viksit Bharat Abhiyan' session in classroom no 313, ECE Department, IGDTUW, featured Ms. Megha Dua, JRF, as the speaker on December 22, 2023, who engaged around 40 students in a discussion on the document typesetting tool Latex. The Latex is a powerful and widely adopted tool. Ms. Dua delves into the key components of the topic, outlining its objectives, curriculum, and the impact it has on empowering learners in the realm of document preparation.

She tells the students that Latex is widely used for production of scientific and mathematical documents due to its exceptional typographic quality and flexibility. She discussed the objectives of this program which includes introducing Latex, enhancing document quality. She also provides the learners with a fundamental understanding of Latex syntax, commands, and document structure. She encourages students to create documents using Latex which includes in-depth exploration of mathematical typesetting, bibliographies, and handling large documents.

She has discussed the impact of learners that it equips the students with a valuable skill set for academic and professional endeavors but also instills an appreciation for high-quality document creation. This session offered students not only the comprehensive introduction of the Latex but also emphasized the importance of Latex in academic and research environments.
