Session on

Nurturing Ideas For The Future of Viksit Bharat

In a strategic initiative to bolster awareness and engagement with national initiatives, Professor Nidhi Goel, Head of the Department of Electronics and Communication Engineering (ECE), orchestrated an impactful session in the CVIP Lab at Indira Gandhi Delhi Technical University for Women (IGDTUW) on 15th December 2023. This session was attended by 38 students and was dedicated to enhancing awareness regarding "Viksit Bharat" and elucidating the significant roles to be played by both faculty members and students of the university.

The session served as a pivotal platform to underscore the importance of "Viksit Bharat" in the academic context, emphasising the critical role that technological advancements and innovative thinking play in contributing to the nation's progress.

A diverse audience, including esteemed faculty members and engaged students, actively participated in the session, showcasing a keen interest in understanding and contributing to the "Viksit Bharat" initiative.

Professor Nidhi Goel, in her capacity as the Head of ECE, emphasised the indispensable role of faculty members in fostering a culture of innovation and technical proficiency among students. The session provided practical strategies and examples, inspiring faculty members to integrate "Viksit Bharat" principles into their teaching methodologies. Addressing the student cohort directly, the session highlighted the significance of honing technical skills and cultivating an innovative mindset. Students were empowered to actively contribute to the national narrative of progress through their academic pursuits.

The session commenced with a comprehensive presentation, providing an overview of "Viksit Bharat" and its relevance in the contemporary technological landscape. This was followed by an engaging discourse, allowing for questions and discussions. Professor Nidhi Goel and other faculty members shared best practices and success stories related to integrating innovative teaching methods aligned with the principles of "Viksit Bharat."

A dedicated segment allowed students to share their perspectives, fostering a collaborative spirit and encouraging the exchange of ideas within the student community. The awareness session on "Viksit

Bharat" in the CVIP Lab, led by Professor Nidhi Goel, emerged as a valuable initiative for knowledge dissemination and community engagement. The session aimed to catalyse a collective effort toward technological advancement and innovation within the university.
